Digitalization is progressing relentlessly – as a consequence, the world is becoming increasingly globalized. The ubiquitous communication and data technology is changing the way we live and work.

Multicultural offices with employees of different generations characterize today’s working environment. Up to three generations work side by side; top international talents bring a variety of working and communication cultures to the office.

Work can be completed anytime, anywhere – across teams and rooms. The boundaries between working and personal lives are increasingly blurred. Fast, reliable and easy access to data, networks and electricity is essential.

Sustainability is no longer a trend. Products and services are shared to reduce the amount of waste generated. Intelligent office planning and individually tailored solutions such as desk sharing support this way of thinking.

Hustle and bustle, as well as disruptive background noises, are affecting our health. An inspiring setting that offers the right balance between work and leisure, will improve well-being. Healthier employees will foster efficiency within the company.

The flexible solutions from USM enable companies to remain competitive in our ever-changing times. This brochure provides answers to the numerous requirements of today and tomorrow.

USM Modular Furniture – sustainable thanks to its modularity.

More information is available at www.usm.com.

The office world

Environment helps foster creativity. Long shared benches, table islands, standing desks and seated workstations prioritize individualization while stimulating collaboration. USM maximizes customization and comfort with its range of ergonomic desks, modular storage systems, zoning solutions and smart technology access points.

Collaborate

Modular elements can be used to optimize the workspace, facilitate communication between coworkers, increase the visual appeal of the room with vibrant color, define informal meeting spaces and create storage. Because office space is growing scarce and expensive, multi-functional solutions are becoming the norm.

Organize

Working in an open space can affect concentration. Employees need private, quiet areas in order to focus efficiently or exchange ideas with a colleague, and they are increasingly looking for such temporary or permanent workspaces. Home offices can be another popular solution.

Focus

Short breaks – coffee breaks, lunches with colleagues or informal chats at the juice bar – are great for productivity ... and exchanging ideas. Flexible work schedules could also reveal the need for a children's corner. USM's Privacy Panels can be assembled "à volonté" to facilitate each office's workflow.

Relax

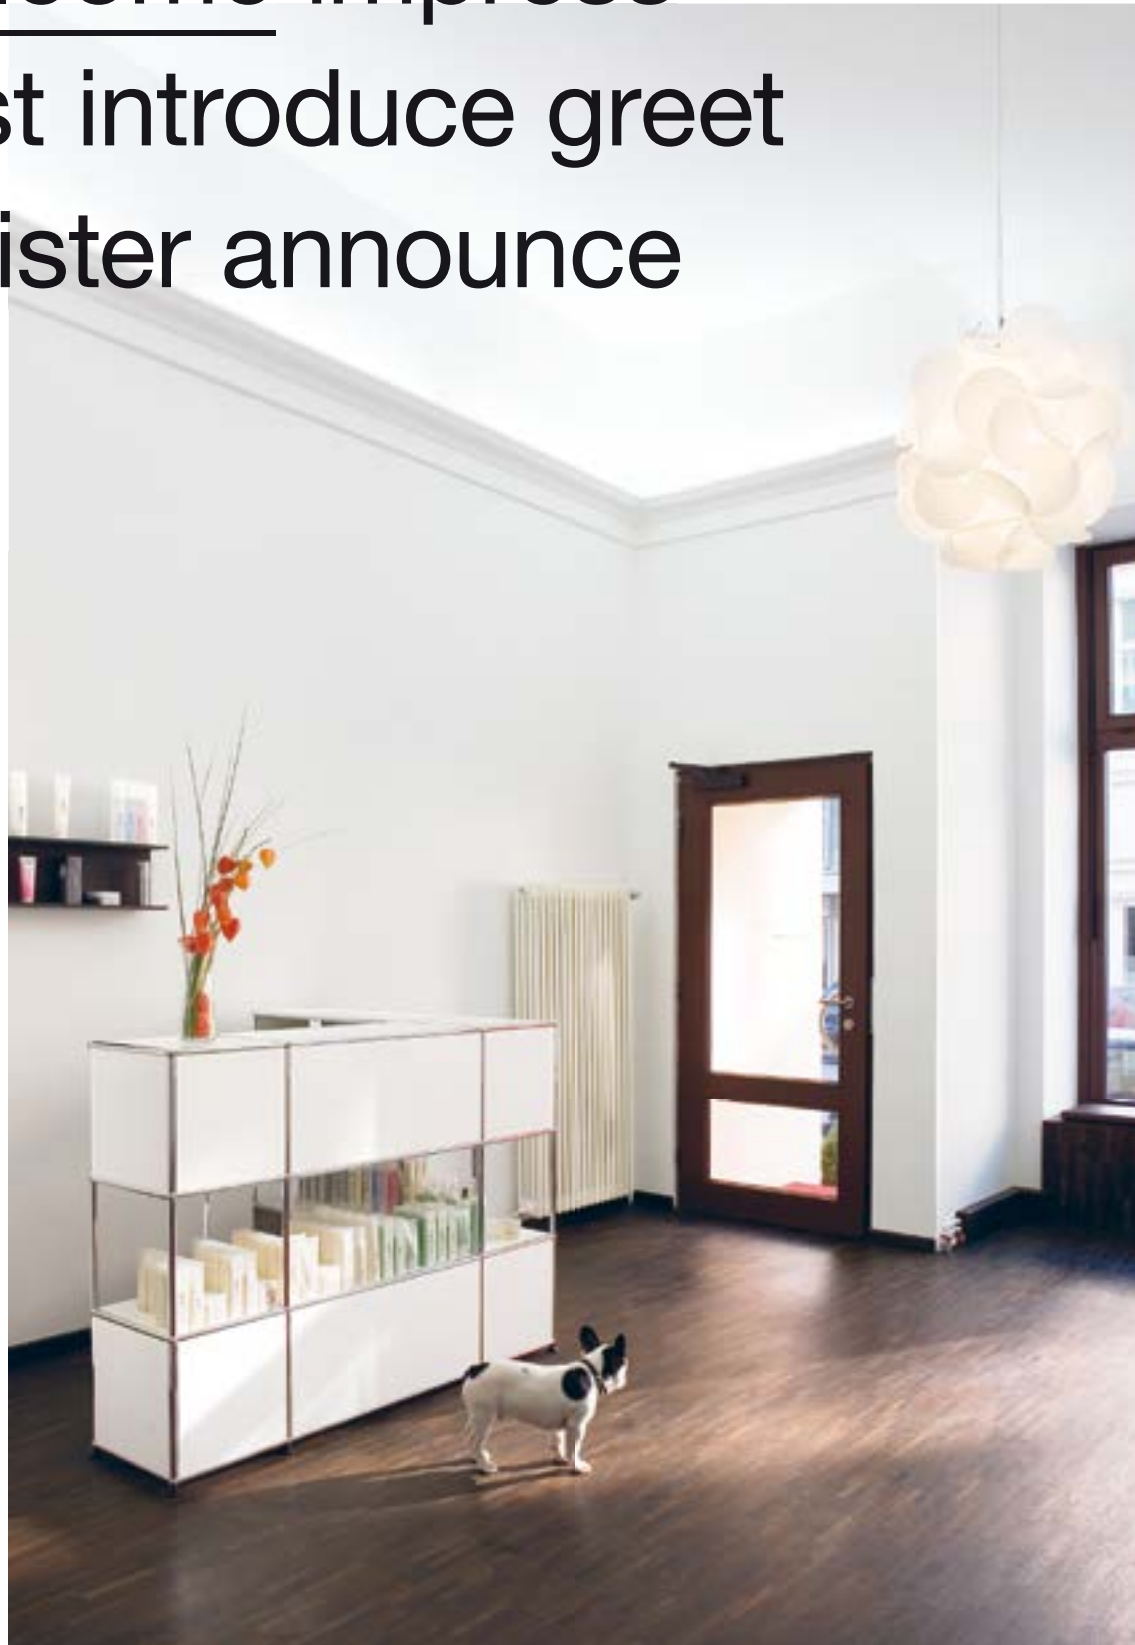

The first impression matters. To ensure that customers or potential candidates get the best first impression, companies spend time designing welcoming and friendly reception areas. Employees will also feel supported by a clear, established corporate culture.

Welcome

Meetings can be broken down into 3 categories: informal, formal and scheduled meetings. Some might be held behind closed doors while others might take place in a cozy lounge. Modular solutions make it possible to optimize the space and offer a solution for every requirement.

L: 1500 / D: 750
L: 900 / D: 750

This table is also available as a free-standing table (square or round) and as a hexagonal table.

- Height options:
- Fixed H: 740 mm
- Stepwise height adjustment
H: 680–780 mm / 1060 mm
- Continuous height adjustment
H: 700–1200 mm *
- Continuous height adjustment
H: 680–1300 mm

* Not available with glass or granite table tops.

- Electrification**
- Optional cable basket, accessed from below

USM Kitos E

USM Kitos E Column Versions

A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.

E1
Height: 740 mm

E2 with 1 motor
Height: 700–1200 mm
Adjustment time approx. 30 sec.

E3 with 2 motors
Height: 650–1300 mm
Adjustment time approx. 20 sec.

* Without middle traverse; optionally available with middle traverse when placing order.
** Available in a GS-Mark tested version with 3 mm table edge radius and slightly retracted middle traverse.

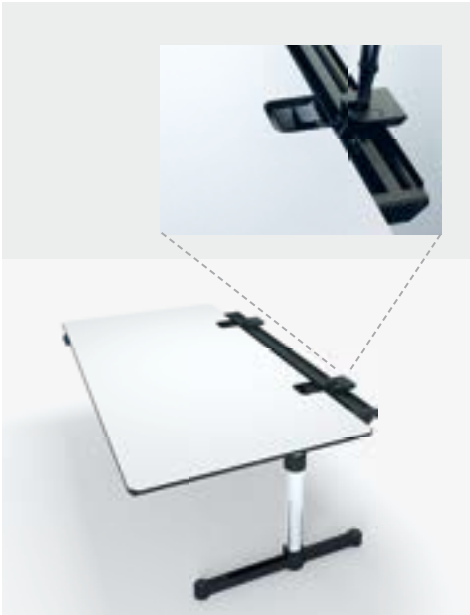

USM Kitos E

Dimensions in mm
L: 1800 / D: 900**
L: 1750 / D: 750
L: 1600 / D: 800**

Available with E1*, E2 and E3** columns.

USM Kitos E Plus

Dimensions in mm
L: 1800 / D: 900
L: 1750 / D: 750
L: 1600 / D: 800

Available with E1*, E2 and E3 columns.

USM Kitos E Advanced

Dimensions in mm
L: 1800 / D: 900
L: 1750 / D: 750
L: 1600 / D: 800

Available with E1*, E2 and E3 columns.

USM Kitos E Meeting

Dimensions in mm
L: 2500 / D: 1250
L: 2500 / D: 1000
L: 2250 / D: 1000

Available with E1, E2 and E3 columns.

USM Kitos E Free-standing

Dimensions in mm
Square L: 750 and 900
Round ø: 900 and 1100

Height options:
H: 740 mm
H: 700–1110 mm

USM Kitos M

USM Kitos M

The “M” in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 sec. with zero energy consumption.

USM Kitos M

Dimensions in mm
L: 1800 / D: 900
L: 1750 / D: 750
L: 1600 / D: 800
H: 700–1200 mm

Optional height indicator available when placing order.

USM Kitos M Plus

Dimensions in mm
L: 1800 / D: 900
L: 1750 / D: 750
L: 1600 / D: 800
H: 700–1200 mm

Optional height indicator available when placing order.

USM Kitos M Meeting

Dimensions in mm
L: 2500 / D: 1000
L: 2250 / D: 1000
H: 700–1150 mm

Optional height indicator available when placing order.

1 Flat screen support

Screens are mounted onto the bracket (VESA standard), which can be connected directly to one of the adaptation points. Swivel-type with a spherical joint for the screen.

Options:

- 1a Mounting at different heights is possible for screens weighing up to 8 kg.*
- 1b Continuous height adjustment for screens weighing up to 12 kg.*

2 Flat screen support bar

The bracket is inserted into the adaptation points. Up to two screens can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights and can be adjusted with ball joints.*

3 Grommet hatch for network access

Flush hinged cover set into the table top for easy network access, available in two sizes and can be positioned at three different locations.

4 USB adapter

The adapter is suitable for USB 2.0 and 3.0 ports; it can easily be inserted into the adaptation point. Usable as power supply or for data transfer.*

5 Lamp peg

An optional lamp peg for easy attachment of traditional table lamps. Electrification is possible through the adaptation point.*

6 USM Privacy Panels

Can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station.*

- L: 3000 / H: 350 or H: 700
L: 2500 / H: 350 or H: 700
L: 2250 / H: 350 or H: 700
L: 2000 / H: 350 or H: 700
L: 1750 / H: 350 or H: 700
L: 1500 / H: 350 or H: 700

7 Link chain

Holds and directs cables to the power source. Flexible and adjustable to various lengths.

8 Power strip

Can be configured individually for data and power supply according to country-specific requirements. Available with a 4 m cable or a switch. Magnetically attached to the cable tray.

9 CPU holder

Computers in various sizes can be mounted using a simple holding device under the table.

10 Front and side panel

A black mesh fabric can be attached to the back or the side under the table frame.

- Available in the following table lengths:
L: 2000
L: 1750
L: 1500
L: 1250
L: 1000
L: 750

11 Cable management

For the Access and Advanced table types, a cable tray integrated under the table top offers storage room and attachment options for all cables and technical components. For the traditional USM Haller Table and the USM Haller Plus, a cable basket can be attached.

12 Material tray

Provides room for writing instruments and can be discreetly stowed under the table top.

13 Height adjustment

Manual height adjustment with a removable handle.

* Suitable for USM Haller Plus and USM Haller Advanced.

All measurements in mm.

8 Power strip

Can be configured individually for data and power supply according to country-specific requirements. Available with a 4 m cable or a switch. Magnetically attached to the cable tray.

9 CPU holder

Computers in various sizes can either be mounted using a simple holding device under the height-adjustable table top or attached to the table column.

10 Front panel

A black mesh fabric attaches to the front under the table top.

- Available in the following table lengths:
L: 1800
L: 1750
L: 1600
L: 1500

11 Cable management

A cable tray integrated under the table top offers storage room and attachment options for all cables and technical components.

12 Material tray

Provides room for writing instruments and can be discreetly stowed under the table top.

* Suitable for:
USM Kitos E Plus, USM Kitos M Plus and USM Kitos E Advanced.

The following parts are available with USM Kitos E Meeting and USM Kitos M Meeting tables: Nos. 3, 7, 8, 9, 11.

All measurements in mm.

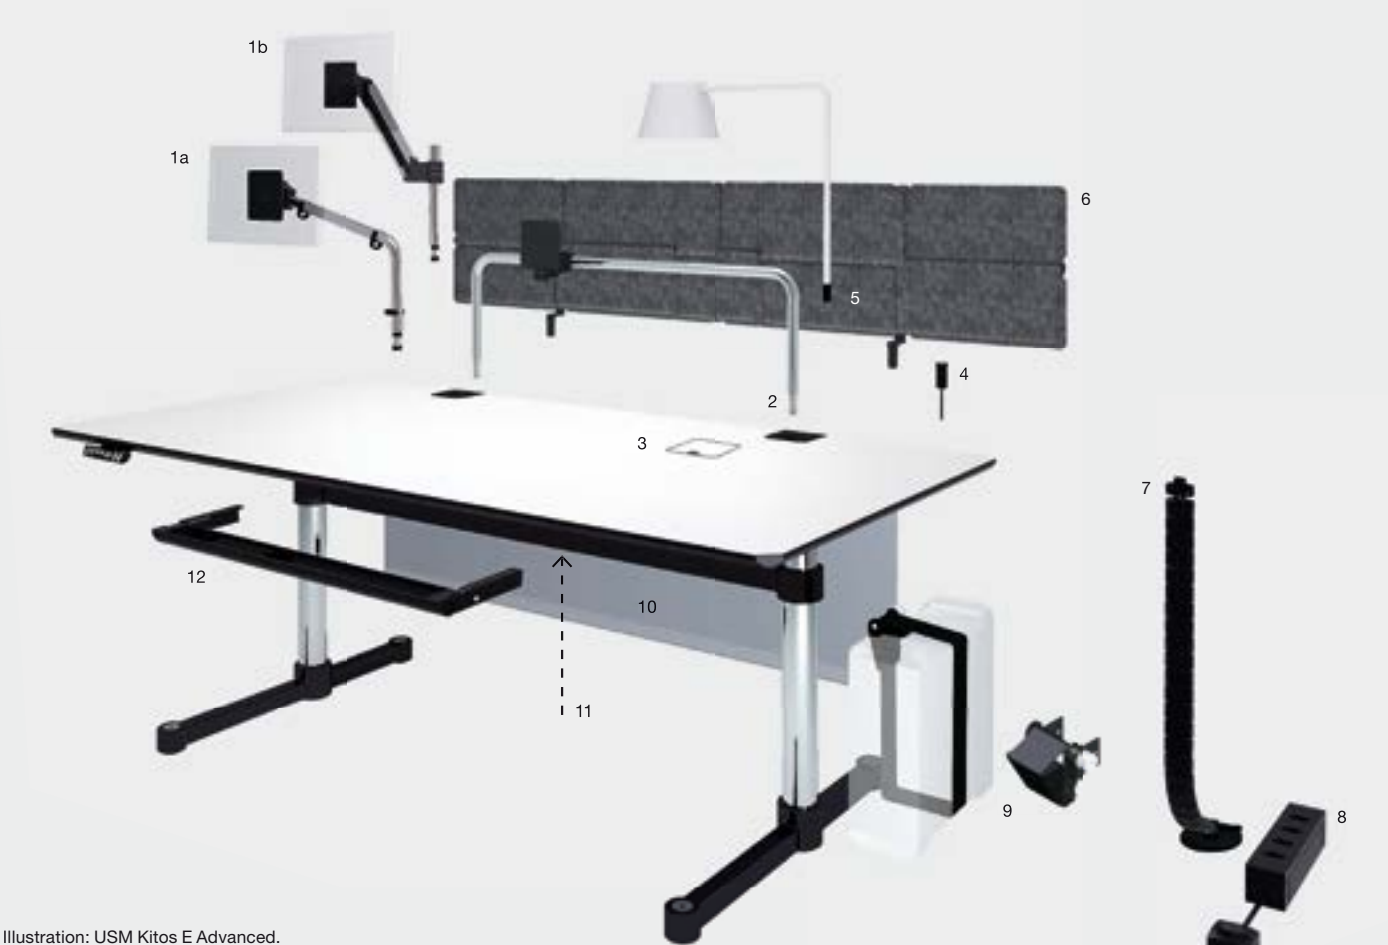

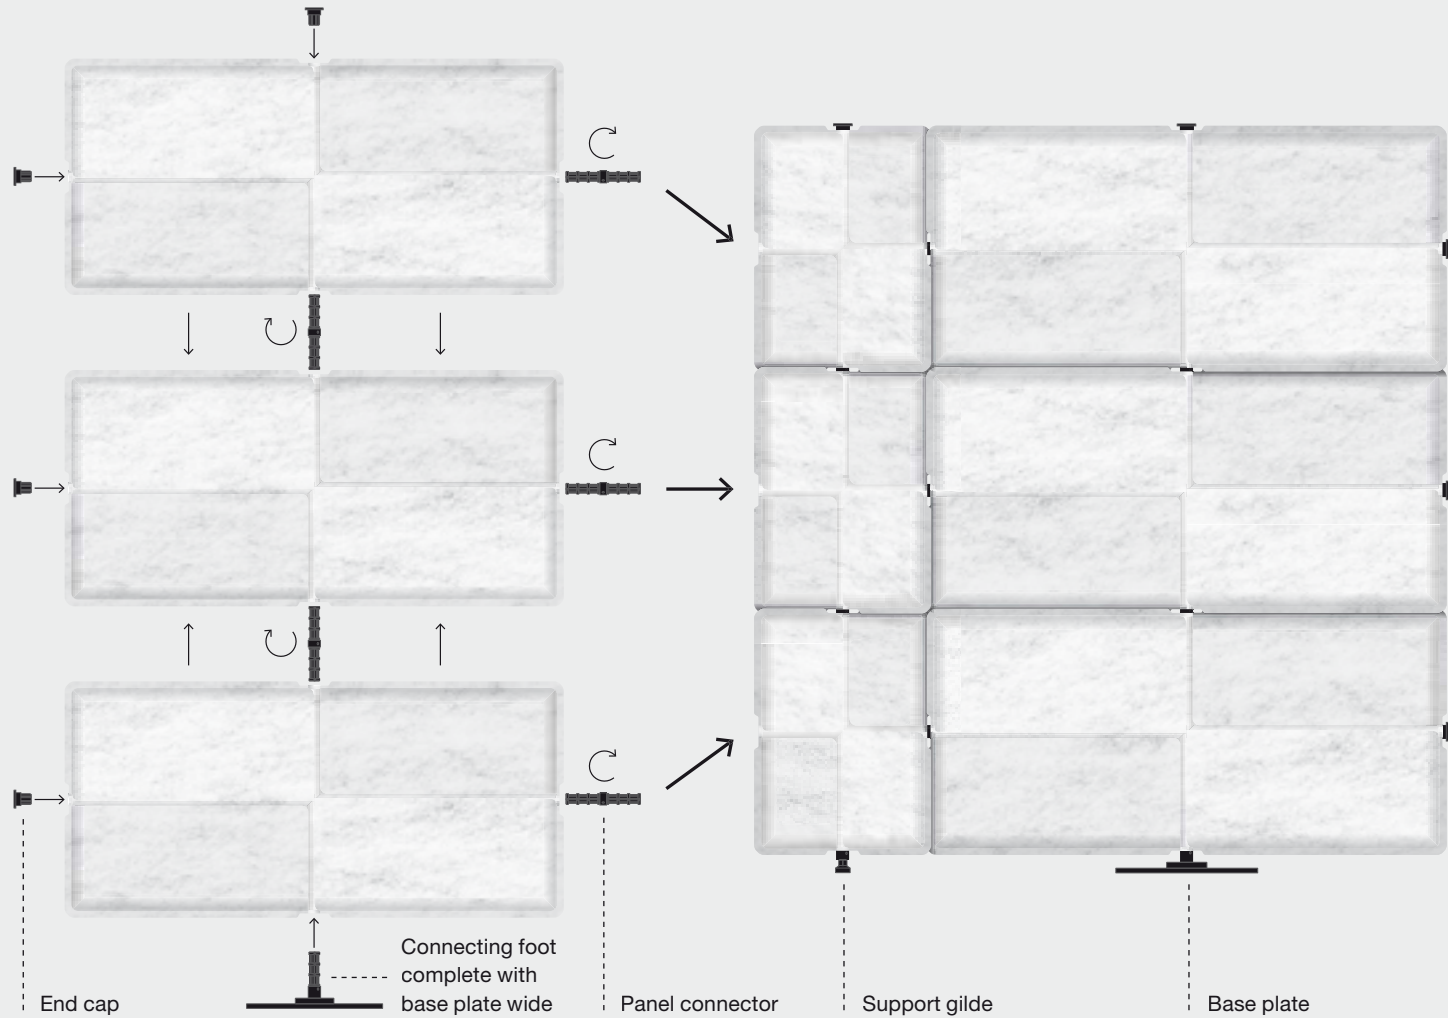

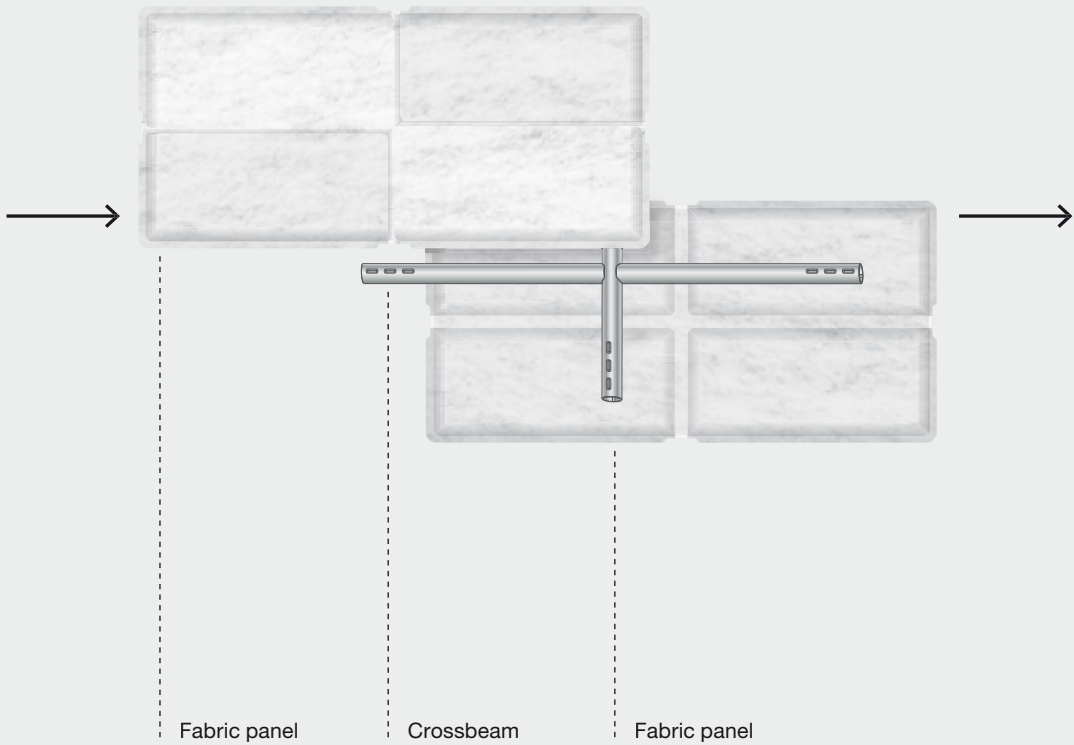

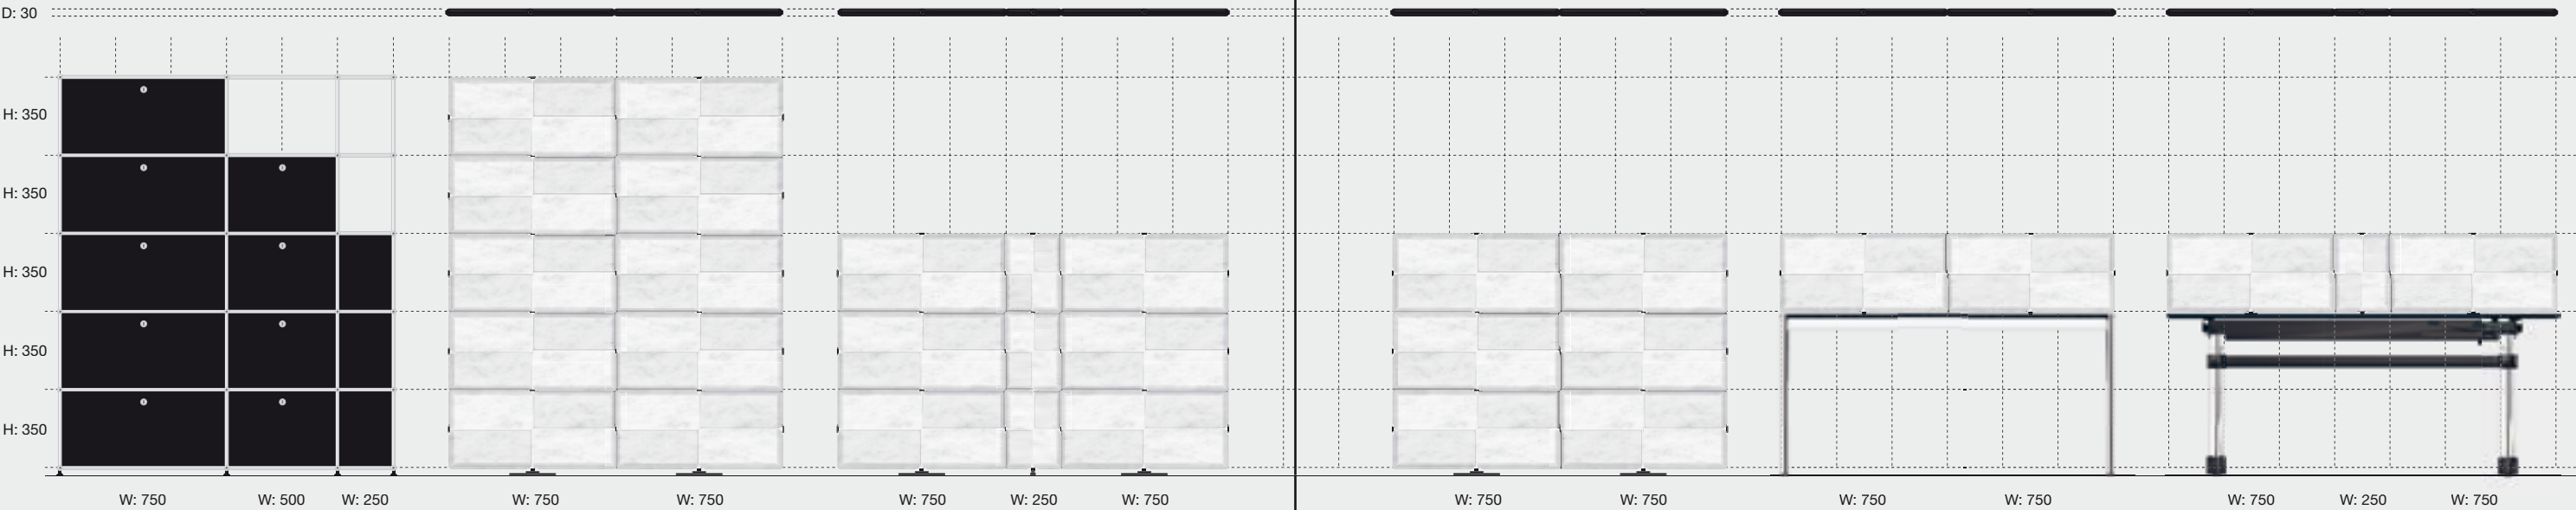

Illustration: USM Kitos E Advanced.

USM Privacy Panels

USM Privacy Panels are a flexible and extensible modular system made up of individual panel units. Each panel unit consists of two layers of moulded polyester fabric with a tubular crossbeam. They can be used in a free-standing version or mounted on tables to divide up the work space, ensure privacy and absorb unwanted noise.

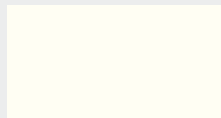

The panels are available in two sizes, a smaller version measuring 250 × 350 mm and a larger version measuring 750 × 350 mm. These dimensions are chosen to match those of USM modular furniture Haller.

All measurements in mm.
